► SERIES OVERVIEW

Tour Champion is a high-performance putting green turf engineered to deliver the precision and consistency serious golfers expect. Constructed with durable nylon fibers, it produces a true ball speed and smooth, reliable roll that closely replicates the feel of a professional putting surface. Designed to handle both putting and short-game practice, Tour Champion features a specialized rubberized backing that absorbs impact from chip shots while maintaining structural stability. The result is a premium practice surface that combines playability, durability, and performance for residential greens, training facilities, and golf-focused landscapes.
